Pudgie Darling -

I've just seen my first movie in about two months - and the two of us saw it together - 'cause you were right there by my side. Pudgie, I saw a movie - but I'm not even sure of the title - I don't remember the story - I wasn't interested - 'cause I was thinking and dreaming about my wife - the movies we've seen together - all our moments together - (But the movies - I'll never forget our first picture - (we took the Harrisburg route home) - but I can't remember a thing that Maisie got in to - 'cause there you were - the girl of my dreams - the most beautiful, most wonderful girl in the world - sitting beside me - and I was dreaming dreams that have all come true - our dates - our engagement - and now - my grandest dream - you're my wife - Darling, I'm so much in love with you. The movie I enjoyed the most - I don't remember it - 'cause we were in the loge at the Grand - and nothing could take my eyes from you. I miss you, Sweetheart, so very much - Darling. if I could only be with you -.

The movie tonight was a musical comedy - one of the Donald O'Connor and Patsy Something - O'Brien, I believe, series - it was so grand to dream. (I think it was Patsy, now?)

Before, the movie was outdoors, but here they use a building - no worry about rain - and I just sat there and dreamed. Darling, never mind what 6 other says - just wait. patiently (I like to use that - now that we have the new definition) -. Pudgie - our life will be - oh. so grand - it isn't proper to say - but it will be so much happier - so much more wonderful than any another -; don't be angry, Sweet - 'cause when Our Day comes, all that will be forgotten - we'll be together - and these days will be past - Darling, we pray that it may be soon.

There will be more grand evenings of dreams - 'cause there will be a movie, every other evening - and whenever I go, I'll go to dream -.

Budgie, I must be patient with Uncle Sam - it seems that everything happens to our mail -. The mail orderly had a jeep to use to deliver and pick up mail - but a jeep was wrecked up the line - and his jeep was sent to replace it - so now our mail is taken to the Post Office whenever anybody "happens to be going in that direction" - and mail is brought in anytime somebody "happens to be coming down here" -. There will be litterless days for both of us, Budgie - but (I'm so glad I'm becoming like my wife!) now - with your cataloging system in use - on litterless days I read again all your wonderful letters. Our last delivery was on Sunday evening - and (it's getting to the point of rumors) rumor has it that we'll get some more tomorrow evening - and I'll be first there when it arrives.

Today was mostly a paper and telephone day. Work was done on papers and things were done by telephone. (How I wish the operator could give me York 35230 - Darling I can hardly wait to send those cablegrams - special delivery letters - and to have our first phone call - from the first place the operator can get York - from over here if possible. No matter what I write about, Sweet - my thoughts are with you - and you're in my dreams - and every word I write is full of love for you. I'm not going to change it - I can't - it will never be changed - 'cause you are going to be with me forever - and I'll never be able to tell you how much I love you -. I'm warning you now, Darling - our kisses will never become pecks -! there will never be a paper at breakfast - I'll have to leave for work at least fifteen minutes early! - we're going to have lots - oodles of moments by ourselves - together - alone with each other -, our honeymoon will never end - your hubby is going to have you in ~~his~~ my arms I'm going to have you in my arms every possible moment - I'm going to squeeze your middle - scrub your back - wash your hair - Budgie - it can all be said in a

3 - and we were married - in less than twelve hours!

few words - : from the very first moment of Our Day, I'm going to show you my love - for the rest of our life. Loving you, Pudgie, is the most wonderful thing in the world - I love you so very, very much -

Darling, these days just couldn't be - without you. Your letters, your pictures, my thoughts and dreams of you are my day - everything else that happens just passes by - you are my day - and with you it is so grand. Pudgie, Darling, I love you - I'm so much in love with you. My life has become so grand since that day we came to York by way of Harrisburg - because there have been so many moments - such grand moments - with you - and soon, every moment of our life will be spent together.

When I came back this evening, I undressed, crawled into bed - tucked in the mosquito bar - and we're alone - apart from the rest of the world. The setting is very fine - for complete protection - and it just blocks out the rest of the tent, let's see - to complete the picture: my shorts are brown (I don't trust myself spelling khaki - kakhi - see?) I've had to imagine colors, too -: I can see you in our room - on our bed - in panties and gg top - but what color is it? The panties - well, I have an idea of their color (!) - but the gg's? Red? (That's the color I add generally!) But soon, I'll know the color - and I will no longer be in the brown - 'cause we'll be in each other's arms when we have our Goodnight kisses -

The generator ran out of gas - the lights went out - so we'll go to bed by flashlight - but we need no flashlight for our Goodnight kisses - Here comes the first one -

All My Love - Pudgie - It's Yours
I love you so very much -
Hubby Jerry
